

WordPress Training Workshop

In our wordpress training workshops we simplify the process for you.

Improving your knowledge of WordPress with our WordPress Training for Beginners Workshop.

WordPress Drives 30% of the Internet

As a content management system (CMS) it is by far the most popular holding 59% of the market. Its closest rival is Joomla at 28% of the market.

Stress Free Learning Environment

There is no assessment for this course and the learning environment is stress-free. If you would like to actively participate in discussions, that would be great. If not, that's also OK too.

Even organisation like CNN, SONY and eBay use WordPress.

Who is this
Wordpress
Training suited
too?

3

Business & Individuals

Anyone with an interest in websites. From Secondary school students to business owners and managers who understand that if you're not on the web then you are probably losing customers.

4

About the Style of Training (non-technical)

Even though we introduce some simple Cascading Style Sheets (CSS) and Hypertext Markup Language HTML. There is no coding or programming. Most of the editing is completed via a WYSIWYG editor. Drag and drop style editing.

5

At the end of the
Wordpress
training course,
you will be able
too.

- Explain the purpose and how a domain works.
- Recognise good and bad hosting packages.
- Setup your Wordpress website via cPanel.
- Install a standard theme and perform basic editing of the theme.
- And much more

6

WordPress Training Workshop Locations

Why not consider a Wordpress training workshop at your location anywhere across **Melbourne, Ballarat and Victoria**. We also travel interstate - please ask for a quote. See online for public workshops.

7

About the Facilitator

Your facilitator will be Ken who has been involved in web design since 1997. Specialising in Wordpress websites from beginner to advanced & including search engine optimisation (SEO).

8

Give yourself A Break

Would you like your staff to take control of one of the most effective marketing tool you have? You may have even put a substantial amount of time and money in with seemingly with only a small benefit.

Solving
Website
Problems
for
Business.

9

Corporate WordPress Training

If it's one on one or a group of twenty employees or managers, they will all receive the same attention from our facilitators. Your business will be front and centre.

Beginner, Intermediate and Advanced Workshops.
